

VISION OPTIQUE

2900 Wesleyan Street, Suite 100, Houston, TX 77027

Myopia Management

If your child has trouble seeing far away (nearsightedness, known as myopia), you can correct AND help protect their vision from getting worse as they grow!

At Vision Optique, we offer the most comprehensive diagnostic and treatment options for myopia control.

Call us to schedule an eye examination for your child. Our doctors will help you identify the best evidence-based treatment option to manage your child's myopic progression.

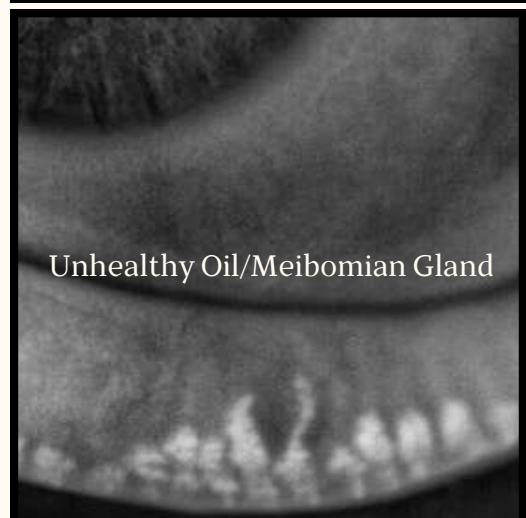

Pictured is Lyla with Dr. Christina Huynh. Lyla has been in MiSight contact lenses since September 2023. She has experienced freedom from glasses during the day, while slowing down the progression of her myopia.

Dry Eye Center of Excellence

Dry eye symptoms affect millions around the world. Left untreated, they progress to the disease state and start affecting people's vision, quality of life and work productivity.

Our Dry Eye Clinic specializes in identifying and treating the root causes of your dry eye disease (DED) using the most advanced technology. We follow evidence-based treatment protocols to manage and treat all ocular surface disease conditions. Come see the doctors at Vision Optique to find long term relief from dry eye symptoms.

For appointments: Call 713-838-2020 or email us at info@visionoptique.com
